

1 DAY HALAL TRAINING- FORENSIC HAS

(HALAL ASSURANCE MANAGEMENT SYSTEM)

Date: 21 October 2019
Venue: M Hotel, Kuching, Sarawak

What is Forensic HAS?

The Forensic HAS training is designed to provide knowledge and guidance to participants on the implementation of HAS. This program provides participants with an in-depth understanding and knowledge of HAS as a method to overcome hazards and establish a control system to ensure integrity and safety on the production for halal products and provision services. The method involves theory and hands-on practice that will allow participants to stimulate application and implementation of HAS.

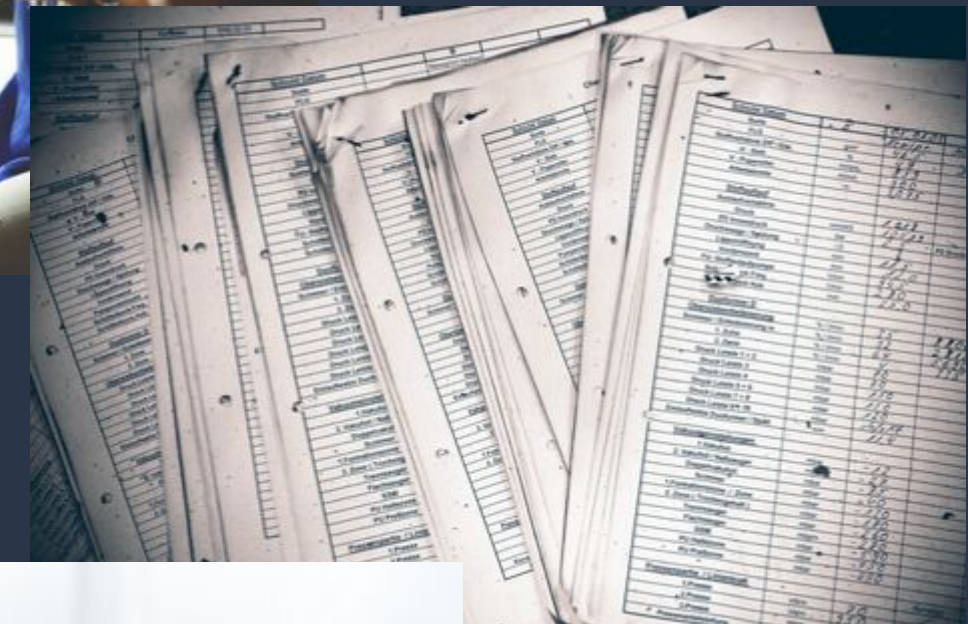

Learning Outcomes

- Identify method for identifying critical raw material/material
- Identify significant halal hazards using reliable tools
- Understand the concept of HAS monitoring system
- Be exposed to verification activities namely internal halal verification

Module Outlines

- Criteria of halal product and services
- Halal hazards along the halal supply chain
- Halal Assurance Management System and Principles
